Ajm19x@my.fsu.edu · www.linkedin.com/in/austin-miller-b3668b205 ·

Hello, I am a rising junior studying Computer Science at Florida State University in Tallahassee, Florida. I have knowledge of C, C++, JAVA, and some JavaScript. I am a fast learner, who is always willing to work hard to get things done. I work great in a team setting and love to help others get things done!

EXPERIENCE

MAY 2020- PRESENT

SALES ASSOCIATE, HOME DEPOT

As a sales associate at the Home Depot. I was tasked with keeping the products in stock and helping with customers. As a result of my employment at the home depot, I learned to work well with others and have great customer service. It also helped me work on my compatibility with others.

MAY 2020 – AUG 2020

CODE SENSEI, CODE NINJAS

As a code sensei I was tasked with teaching game development and basic coding skills to students at Code Ninjas, the languages we mainly taught were JavaScript and java. Using games such as Minecraft, ROBLOX, and building games from scratch, I was able to successfully teach young children the basics of coding.

EDUCATION

AUGUST 2015 – MAY 2019

DIPLOMA, LASSITER HIGHSCHOOL

I graduated from Lassiter High School in May of 2019 with a 4.1 GPA and a 1450 SAT. I was also captain of the Trojans Football team my senior year.

AUGUST 2019 - PRESENT

COMPUTER SCIENCE BS, FLORIDA STATE UNIVERSITY

I am currently pursuing my degree in computer science from Florida State University. I maintain a 3.5 GPA and have an expected graduation date of May 2023.

SKILLS

- C++
- Linux/Unix

- C
- Java
- JavaScript
- HTML
- Visual Studio Code
- GitHub

ACTIVITIES

I spend most of my free time working on my programming skills. Programming has always fascinated me, so I tend to use my free time learning new things. I have always enjoyed learning new skills or tuning the ones I currently have. As an athlete growing up, it taught me many things such as hard work. I plan to use these skills in everything I do in life whether it be at work or at home.

EXPERIENCE

I have over three years' experience with coding, in those three years I have successfully learned how to use the languages java, javascript, c++, and c. I have also learned how to use git and work in a Linux environment.

If you would like to take a look at my portfolio of all of my work, please use this link.
